As a faith leader in Montana, I wish to express my support for the Montana Jewish Project.

The Montana Jewish Project (MJP) will serve as a statewide center for education about Judaism. This will enhance the lives of Jews and non-Jews in our cultural learning. Additionally, the work of MJP to combat anti-Semitism in Montana is a vital step in ensuring justice in our communities.

In 1891, at the dedication of Temple Emanu-El, members of many faith traditions from throughout the state joined together to mark the ceremony. Now in 2021-2022, we, the undersigned faith leaders, support the building returning to Jewish life for the first time since 1935. Returning this historic synagogue building to Jewish use continues Montana's long tradition of including different religions and cultures in Montana.
